

# Coronavirus Business Interruption Loan Scheme (CBILS)

## What is it?

The Coronavirus Business Interruption Loan Scheme (CBILS) supports small and medium sized businesses with access to loans, overdrafts, invoice finance and asset finance of up to £5m and for up to 6 years.

The first 12 months of interest will be paid by the government and any lender levied fees, therefore there will be no upfront costs and lower initial repayments.

The government will provide a guarantee of 80% of each loan (subject to pre-lender cap on claims) to the lenders. It should be noted that the borrower always remains 100% liable for repayment of the debt, with debt repayment holidays or payment deferrals being at the discretion of the lender.

Since its launch this scheme has been expanded and now covers all viable businesses, with less than £45m turnover, not just those unable to secure regular commercial financing. Insufficient security is no longer a condition to access the scheme. (For any commercial facilities – non CBILS - offered since 23rd March, providing the borrower meets the CBILS eligibility criteria lenders have been asked to bring these facilities onto CBILS wherever possible.)

Under the scheme lenders will not take personal guarantees of any form for facilities below £250,000. For facilities above £250,000, personal guarantees may still be required at the lender's discretion but:

- They exclude the Principal Private Residence and
- Recoveries under these are capped at a maximum of 20% of the outstanding balance of the CBILS facility after the proceeds or business assets have been applied.

This scheme is expected to run for an initial 6 month period.
